## A word from the director

---

Dear readers,

Allow me to express my deepest gratitude and admiration to the Czech nation for its solidarity with Ukraine. We are obliged to act this way by our own historical experience, which the Memory of Nations has been promoting for over two decades. Ukraine, a European country under attack, is valiantly fighting for its freedom. Putin's Russia is perpetrating terrible crimes against humanity. Those who have brought suffering to millions of people must be made responsible.

Fifty thousand donors contributed to the Memory of Nations collection to the sum of more than half a billion Czech crowns (roughly twenty million euros). The money has funded deliveries of bulletproof vests, drones, medical supplies, high-capacity generators, fire engines, ambulances, and much more. We are now focusing our help mainly on the defenders of Ukraine. I most sincerely thank all of you who are helping with us! Please persevere. I returned from a 10-day visit to Ukraine a few weeks ago, and I can attest to how much the Ukrainians appreciate and depend on our help.

In 2022, we continued to intensely develop our documentation, education, exhibition, and media projects. We maintain a large number of documented witnesses. Following discussions, we have decided to focus more on searching and researching fascinating stories and producing high-quality texts, which we have facilitated by increasing our editors' rates. The interest shown by pupils, students, and teachers is heartwarming, as are their responses to our educational programmes – especially Stories of Our Neighbours and our historical workshops. We are also happy to see the success and seamless functioning of our Adaptation Centre for Ukrainian teenagers.

---

I am grateful for dozens of excellent international projects, for the superb cooperation with our sister organisations in Slovakia and Ukraine. I very much appreciate the many exhilarating articles written by my colleagues at the Memory of Nations Magazine, and we are thrilled by the enormous interest generated by our podcast, Dobrovský and Šídlo, of which I am an avid listener. A year after Covid, we have also revived our Memory of Nations Help Hub, which is gradually ramping up its offer of consultations and social services for former freedom fighters and those persecuted by totalitarian regimes. We launched a second year of the Memory of Nations Grammar School. The Post Bellum team is growing. We had to find more office space – thanks to our amazing supporters Jiří and Radana Wald, we were able to rent another floor at Španělská 10 in Prague under very favourable conditions.

I cannot list all of our successes here: we organised hundreds of unforgettable events and won dozens of medals and awards. In closing, allow me to thank all of my wonderful colleagues, whose work is of enormous value. Thank you so very, very much! You are an experienced team of experts, professionals, and downright decent people who cooperate and develop the Memory of Nations in a spirit of friendship both at home and abroad.

I am immensely grateful to all our donors and supporters. Without your funds, support, and various donations, we could do nothing. Please stay with us. We appreciate all your help. We hope this annual report will be at least a partial testament to the work you enable. Thank you.

Sincerely,

Mikuláš Kroupa, Director of Post Bellum,

WITNESSES STORED IN THE MEMORY OF NATIONS

INCREASE IN 2022

---

The Memory of Nations can boast one of the most extensive collections of its kind in the world thanks to years of intense, sustained effort. Throughout its existence, documentarians have searched out and recorded the life stories of people who were subjected to the oppressions of totalitarian regimes and who actively fought against them. However, researchers also investigate the stories of people from a multitude of fields and segments of society.

---

In 2022, the Memory of Nations grew by a record number of published stories. As Covid-19 regulations were no longer an issue, it was possible to put our studios and documentarians to full use. This allowed us to record not just an amazing number of memories, but also many amazing people. Their stories form the basis of many ongoing exhibitions and educational projects, as well as future ones that Post Bellum plans with other partners.

This year was obviously strongly impacted by the conflict in Ukraine. Despite initial struggles overcoming the language barrier, we managed to record the stories of a number of Ukrainians who found themselves in the Czech Republic. Their memories were not limited to the present circumstances but also reached far back into the past. Similar efforts were made, with our

assistance, by our colleagues in Ukraine itself.

The witnesses recorded there have enriched our archives with unique life stories that often reveal surprising similarities to Czechoslovak history.

We were also able to deepen our coverage of traditional, mainstay topics. Our cameras recorded the memories of RAF veteran Emil Boček. We are still able to bridge the gulf of years and discover the unknown stories of people who resisted or were imprisoned by totalitarian regimes.

**Witness interviews are usually recorded by documentarians and camera operators in one of our studios. If a studio session is impracticable, we use voice recorders to ensure that no meaningful testimony is lost or forgotten.**

# Narrating

We are still searching for ways to teach our history, to go beyond the mere dates, names, and statistics that most of us remember from our school days. We want to enthuse pupils and adults alike to daringly explore the dramas of the 20th century. The stories of the Memory of Nations are brimming with inspiration, hope, and they confront each of us with the question: What would we do in that situation? We strive to communicate these stories in a modern language, via social media or the interactive exhibitions in our Memory of Nations Institutes. We also try to leave room for dialogue, which is why we organised a total of 123 events throughout the Czech Republic in 2022.

## RADIO STORIES OF THE 20TH CENTURY

Thrilling real-life stories were again broadcast by Czech Radio every Sunday throughout 2022. The programme is prepared by Mikuláš Kroupa and Adam Drda.

## MEMORY OF NATIONS INSTITUTES

On Tuesday 15 March 2022, we celebrated the opening of the first Memory of Nations Institute in the Machoň Arcade in Pardubice. The institution is centred around its permanent exhibition *Quiet Heroes*, which tells real stories of the 20th century through a combination of projections, unorthodox effects, augmented reality, and interactive screens. Visitors can thus experience World War II with two of its witnesses, Jaryna Mlchová or Tomáš Sedláček. Besides the general public, the exhibition was visited by almost 2 000 students and pupils in 2022, who also undertook one of three thematic workshops: Jews in the Protectorate, The Second Resistance, or Political Prisoners.

The Pardubice institute is also a place of community. Visitors could attend 21 talks and lectures with a slew of interesting guests. These included future Czech President Petr Pavel, priest Marian Kurylo, author Markéta Lukášková, journalist Miroslav Karas, and others.

We opened our second Memory of Nations Institute on Tuesday 22 March 2022 in a former air raid shelter in Bezruč Park in Olomouc. The Olomouc MNI launched with the audiovisual exhibition *Revealed Stories of the 20th Century*, which presents the dramatic lives of five witnesses of the war and Communism in the Olomouc Region. One of the rooms was equipped for large-format projections of archival photographs. The exhibition was visited by more than 3 000 people in 2022.

Finally, 2022 also saw the opening of the Brno Memory of Nations Institute. We organised 47 events for the public at the institute, which is located in the city centre, at Radnická 10. These included talks with war veteran Roman Kopřiva, author Pavel Kosatík, and historian Denisa Nečasová; in the autumn we held debates with three of the country's presidential candidates – Danuše Nerudová, Marek Hilšer, and Pavel Fischer. In November, we opened the first Memory of Nations Café on the ground floor of the building. Apart from “the strongest coffee in Brno”, it offers a diverse array of side events, such as screenings and concerts, while also serving as a small shop and pick-up point for the Memory of Nations e-shop. We also started preparing exhibition spaces on the second floor at Radnická 10 for the Brno version of *Quiet Heroes*, to be opened in 2023.

## MEMORY OF NATIONS MAGAZINE

In 2022, we significantly expanded our offer of attractive articles in the Memory of Nations Magazine. Besides the many compelling stories of witnesses who shared their memories with us, we took a look at the history of Central and Eastern Europe, including Ukraine's travails between two terrifying totalitarian regimes – Hitler's Germany and Stalin's USSR. We prepared political analyses and commentaries on historical developments that continue to impact our region and raise difficult questions. Articles discussing social phenomena from the era of Communist Czechoslovakia were especially popular. In autumn 2022, we also published the first-ever print edition of the Memory of Nations Magazine.

## MEMORY OF NATIONS PODCAST: DOBROVSKÝ & ŠÍDLO

For the third year now, we have participated in the Czech podcast scene with a unique mix of current affairs and recent history. These dialogues between the Chairman of the Memory of Nations Collegium Jan Dobrovský and the commentator Jindřich Šídlo are best characterised by the catchphrase “your regular dose of opinions, information, memories, and sentiment”. Our greatest success was placing third in the Podcast of the Year category of the audience-voted Czech internet awards Křišťálová lupa in 2022.

## DEPORTED MEMORY

The international travelling exhibition Deported Memory offered thought-provoking images on the sides of a lorry trailer. It travelled to five European countries and six cities. It presents the stories of 12 witnesses from five countries who tell of the troubles caused by their forced deportation after World War II.

## MEMORY OF NATIONS FESTIVAL

The Memory of Nations Festival also took place again in 2022, with a programme full of exhibitions, screenings, talks, concerts, film stories, and plays. The festival brought life to the southern stand of the unique Strahov Stadium. Performing musicians included Barbora Poláková and Vladimír Merta. Visitors were able to view the awe-inspiring exhibition of wrecked vehicles from the Kiev Region, or A Tribute to Václav Havel, among many others.

## MEMORY OF NATIONS AWARDS

The annual celebrations of 17 November included our traditional awards ceremony, broadcast live from the National Theatre on Czech Television 2, honouring four real heroes from the Czech Republic and Slovakia. The 2022 laureates included the Ukrainian dissident and former political prisoner Myroslav Marynovych. Music was provided by the Memory of Nations orchestra with Ježkovy stopy, and the event was concluded with the Ukrainian anthem.

## Other exhibitions:

- 
- The exhibition **Memory of Nations in the Moravian-Silesian Region** presented personalities from the region's recent history. Witnesses spoke openly of the First Republic, the horrors of the Holocaust and Nazi camps, and about fear. But they also talked of willpower, courage, hope, and faith.
  - The travelling exhibition **Stories from Ukraine** brought visitors closer to contemporary events in Ukraine. War-wrecked vehicles were transported from the Kiev Region by the Memory of Nations team and partners.
  - **That's What We Want!** This exhibition about Kopřivnice's road to freedom portrayed people whose lives were related to the town's famous Tatra brand.
  - The exhibition **Budějovice Witness in the Totalitarian 20th Century** provided a selection of stories that outlined developments in South Bohemia throughout the 20th century.
  - The exhibition **Absence** comprised photographs taken by Šimon Dvořáček and Viktor Portel while filming the documentary series *Stories of the 20th Century: The Holocaust*.
  - Twelve figures from the folklore scene narrated their memories in the travelling exhibition **The Power of Folklore**. Their stories took us back into the days when folklore was misused as a tool of Communist propaganda.
  - The history of the Lipno area was explored with the exhibition **Lipno – A Reflection of 20th-Century History**. This alternative look at holiday-making presented 13 stories of witnesses who grew up in the area.
  - The educational project **Stories of Our Neighbours** gave rise to exhibitions in Slavičín, Luhačovice, Francov, Lhota, Jablonec and Broumovsko.
  - The exhibition **The Sunken Star** explored historical caricatures in antisemitic propaganda. The historian Petr Králíček's collection mapped the development and visual aspects of the phenomenon during the First Republic and the Protectorate.
  - The exhibition **Velvet in the Theatre** commemorated the anniversary of November 1989. Using photographic panels in the municipal theatre in Pardubice, we presented several leading figures of the Velvet Revolution in Pardubice.
  - The exhibition **Pioneers of Capitalism** looked at the transnational economic history of the 1990s and early business ventures in the wild years after the fall of Communism.
  - Five stories from the generation that grew up in the 1960s and met in the renewed Czech Scouting organisation, whose values they had retained. The Scouts presented in the exhibition **The Dandies from Veselí** often continued to meet after the organisation was banned, and growing up they joined the long-haired alternative community of "dandies".

---

## Other documentary projects:

---

- In May 2022, we presented the document **The Bombing of Mladá Boleslav on 9 May 1945**, which opens a less-known chapter of our history. It details the air raid that hit the city at the very end of World War II.
- **Hot August of 1968 and 1969 in Liberec** is a document that recapitulates the invasion of Warsaw Pact forces on 21 August 1968 through the memories of Petra Erbanová and Petr Šída and captures the atmosphere in Liberec a year later.
- The document **Transformations of the Ústí Region** looks back to the time of changes that still affect the region today. The most dramatic period came in the aftermath of the war, when the ethnic composition of the area's inhabitants was drastically transformed.
- **A Story of Kłodzko Czechs**. We present the life stories of inhabitants of the "Czech Corner" of Kłodzko, including Marie Wolská, in the documentary Kladsko – Glatz – Kłodzko: Reconciliation in the Czech Corner.
- The film **Pioneers of Capitalism** was screened during a conference of the same name. Historians, businessmen, and politicians from both sides of the newly opened borders shared their view of the economic transformation.
- The document **The Power of Folklore**, based on archival materials and the memories of folklorists, was presented along with the eponymous exhibition.
- By screening the documentary film **Farmers** we commemorated the forced collectivisation and "dekulakisation" – one of the many abhorrent crimes of the Czechoslovak Communist regime.
- We also helped prepare the short documentary film **The Velvet Revolution in Pardubice**.

## THE PRESS

By far the greatest focus of the press in 2022 was on our activities in support of Ukraine. Members of the press regularly visited our warehouse, documented the assembly of bulletproof vests, and followed our aid process. A total of 2 236 reports, interviews, and news articles were published about our collection.

The post that generated the most interest was the story of the Slovak Jewish girl Erika Bezdičková (34.9k), who was deported from Auschwitz shortly before its liberation to the Genshagen camp, where she had to work in a factory making aircraft engines at the age of 13. The post was published on the occasion of the 77th anniversary of the liberation of the largest Nazi concentration and extermination camp.

## FACEBOOK

The most viewed post was a video published on Christmas Eve as a reminder that Christmas wishes do come true (377k reached). This was confirmed by Mikuláš Kroupa, whose father was unable to buy even a Christmas tree, let alone presents, in the 1970s. As a dissident, he was bullied and intimidated by the regime; he was regularly subjected to interrogations and was prohibited from doing any qualified work. Back then, the Kroupas' Christmas was "saved" by unexpected help from abroad. This post was a Christmas greeting from the Memory of Nations, wishing everyone the chance to find help and support even in the hardest of times.

In 2022, we reached almost 3 million people on Twitter. Our most successful tweet (112k views) contained a video in which a Ukrainian soldier sent his thanks for messages that were sent to his unit by Czech children and Ukrainian children living in the Czech Republic. The soldiers receive the messages inside the bulletproof vests we send them.

Education was also impacted by the 2022 Russian invasion of Ukraine. Czech schools took in a large number of pupils from among Ukrainian refugees. We helped schools cope with the pressure as best as possible – either by organising online meetings of the Schools Network as a guide on how to navigate the new situation and move forwards, or by creating and running tutoring programmes aimed at promoting integration and learning about Ukrainian history and culture. The greatest achievement in this regard was the establishment of the Memory of Nations Adaptation Centre for Ukrainian secondary schoolers, who have the hardest time integrating into the Czech system. We also focused on our traditional projects, such as Stories of Our Neighbours, workshops, theatre plays, and so on.

## **STORIES OF OUR NEIGHBOURS**

A months-long project for thirteen- to fourteen-year-old primary school pupils and secondary school juniors. Aided by their teachers and people from Post Bellum, the documentary teams are tasked with interviewing a witness, recording their memories, digitising photographs, searching in archives, and finally preparing a radio, television, or newspaper report. They can also tell the witness's story as a comics or a cartoon. They then introduce the story of their witness to the public in a grand final presentation. We expanded to new regions in the autumn, including abroad – the project was joined by students from Czech schools in Zurich, Edinburgh, London, Ottawa, and California.

## **NEW EDUCATIONAL DEVELOPMENTS**

In response to the wave of Ukrainian children arriving in Czech schools, we created three new tutoring programmes: 20th-Century Ukraine in the Stories of Witnesses, More than a Lemon, and The Die is Cast. The first reflects on the past century in Ukraine through the eyes of witnesses. The other two programmes explore the topic of prejudice and pigeon-holing and support the integration of individuals into society.

Several methodology handbooks for teachers of primary and secondary schools were also prepared. The materials use the life stories of witnesses documented in Stories of Our Neighbours to present local history to pupils through the eyes of their peers.

### WORKSHOPS AND FILM STORIES

Our experiential workshops and interactive film stories were experienced by more than 8 000 pupils and students from primary and secondary schools across the Czech Republic. This year also saw several international launches: the programme More than a Lemon at the Tandem expert forum in Weimar, the workshop Well This Won't Work in English for the German organisation Peace Line, the film story We'll Hold Our Hands in a Czech school in Geneva, or an online version of Well This Won't Work for university students in Michigan.

### MEMORY OF NATIONS SCHOOL NETWORK

Throughout 2022, teachers from Prague primary and secondary schools met regularly at educational seminars and outings to uncommon places related to our history, which we prepared for them as part of the Memory of Nations School Network programme iKap II – Innovation in Education. The aim of the project, which continues into 2023, is to support the mutual exchange of experience and foster debate about the teaching of modern history among teachers of the humanities.

We organised a grand soirée for teachers from the Memory of Nations School Network in Gröbe Villa (Grébovka) in Prague, which was preceded by a mini-conference in the afternoon. Our invitation was accepted by more than 80 teachers from primary and secondary schools in various parts of the Czech Republic. The event was presented by Ondřej Cihlář and included a performance by Aneta Langerová.

### **MEMORY OF NATIONS THEATRE**

You can find the Memory of Nations Theatre in Prague, Brno, Pilsen, Liberec, and Ostrava. Our programmes are intended for children and adolescents, but we also meet with senior citizens or bring multiple generations together. Besides our drama clubs, this year we organised regular creative workshops for Ukrainian children, held weekly theatre workshops during the holidays, and presented our first theatre workshop for adult participants (aged 55+) on the topic “1968” in cooperation with lecturers from the Theatre Education Studio at the National Moravian-Silesian Theatre in Ostrava. Another first for 2022 was the intergenerational theatre workshop for students of the Memory of Nations Grammar School and adult participants.

### **MEMORY OF NATIONS ADAPTATION CENTRE**

The educational section of the Memory of Nations helps adapt and educate Ukrainian students aged 14 to 18, who were forced to abandon their homes and failed to enroll in Czech schools. The Memory of Nations Adaptation Centre was opened in April 2022. It offers adaptation-education programmes, after-school courses, preparatory classes, trips, and other activities with the aim of preparing Ukrainian youths for life and study in the Czech Republic. More than 250 students have participated in these programmes since the Memory of Nations Adaptation Centre opened. Our organisation of prep-year classes earned Post Bellum a 2022 Eduína Award.

### **VELVET IN SCHOOLS**

In 2022 we worked with Thanks That We Can to once again organise Velvet in Schools, a project that helps primary and secondary schools throughout the Czech Republic commemorate 17 November. We prepared a broad selection of talks, discussions, and lectures on historical and contemporary topics.

WITNESSES CONTACTED WITH AN OFFER  
OF HELP

---

In 2022, we continued to operate the Memory of Nations Help Hub, which was established during the coronavirus outbreak. The hub mainly helps witnesses whose memories have been recorded by our documentarians. We have a dedicated phone line set up specifically for them. Our call workers provided both specialised and generalised consultations to help guide seniors through complicated situations and provide support in solving them. They mediated information from state institutions, arranged medical, legal, or psychological aid, and also offered the option to simply phone up for a chat.

The situation was not easy, especially for people living alone, and so call workers and volunteers approached them directly with the offer of help. Overall, more than 1 500 witnesses were approached, covering diverse needs: securing transportation to and from a doctor's

practice or home-care provider, giving advice on how to apply for carer benefits, or helping find a suitable nursing home for permanent residence. Most of them welcomed the offer to stay in touch regularly, including regular in-person visits by volunteers in some cases.

In 2023 we are preparing to build up a network of consultation and contact centres in other regions throughout the Czech Republic, with a social worker ready to provide field consultations in cooperation with local volunteers, experts, and specialised organisations. In the following months, our Help Hub is set to expand beyond Prague and Central Bohemia to the Pilsen and Karlovy Vary Regions. We plan to conduct all our activities as a registered social service, and so we are endeavouring to obtain the required registration in 2023.

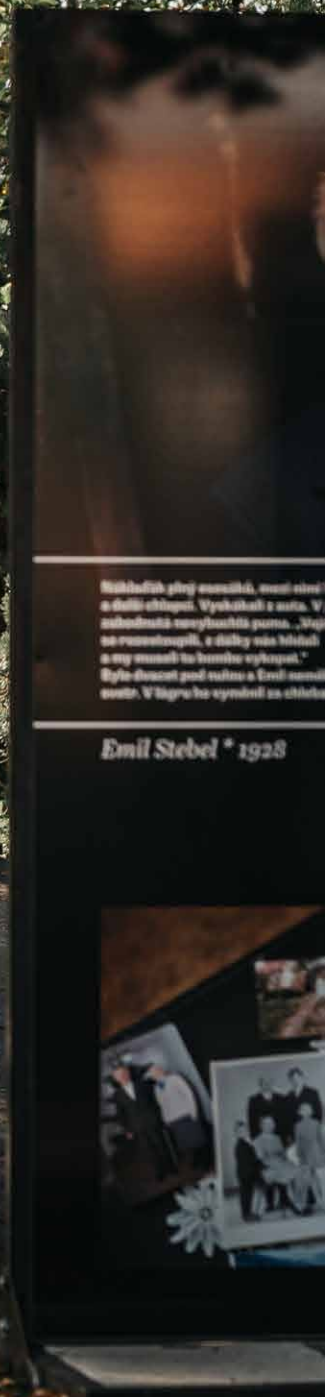

## **AID FOR UKRAINE**

Ukraine faces an unprecedented invasion by the Armed Forces of the Russian Federation. The country has the right to territorial integrity and the freedom to choose its own destiny. We see our friends' determination to defend their homeland. That is why we launched a collection to procure equipment that saves lives and protects the safety of defenders of Ukraine. The deliveries mainly include medical supplies, bulletproof vests, ballistic helmets, sleeping bags, gloves, tents, radio transceivers, batteries, reconnaissance drones, thermal imaging devices, and food. We work with Ukrainian partners to transport and distribute these items to where they are needed most.

## **Thanks to the Memory of Nations collection, we have been able to supply Ukrainian defenders with:**

- 13 577 bulletproof vests
- 2 257 optical devices
- 154 drones
- 4 467 ballistic helmets
- 2 fire engines
- 20 000 first-aid kits for soldiers
- Other medical supplies worth over 1.5m euros
- 200 ventilators and ECG monitors
- 51 generators
- Over 1 300 pairs of boots, hundreds of sleeping bags, backpacks, coats, and gloves
- The overall value of the goods was over 20m euros

# International cooperation

We narrate, document, educate, and help even beyond the borders of our country. We are part of an international network of partner organisations united by the same values and goals. We grow and find inspiration together. In 2022 we continued to expand the international section of our archives, documenting and helping in countries ruled by totalitarian regimes even in the 21st century. Our everyday work lives were constantly affected by the war in Ukraine, which changed many of our plans. Our whole organisation exerted enormous effort in aid of Ukraine and in support of our branch in Lviv.

### MEMORY AND CONSCIENCE OF NATIONS

In 2022, we laid the groundwork for an international project which will document the lives of political prisoners and defenders of human rights all over the world. We will work on the project with numerous Czech non-governmental organisations active in human rights. In 2022, we published stories of witnesses from Azerbaijan, Kazakhstan, Crimea, and Tibet.

## THE REMOVED CHILDREN

In late 2022, we published the German translation of the comic book *The Removed Children*, based on five selected interviews with witnesses of the post-war expulsion of Sudeten Germans. Their stories came to life through the imaginative collaboration of one Czech author and five Czech artists. The original Czech publication won the Muriel Award and a Golden Ribbon. The German edition will have a guest appearance at the book festival in Leipzig in 2023.

## DEPORTED MEMORY

The international travelling exhibition *Deported Memory* visited five European countries and six cities – Prague, Bratislava, Zagreb, Dresden, Wrocław, and Ostrava. Onlookers could explore 12 life stories through texts and images on a lorry trailer, with a focus on the often-overlooked topic of forced postwar migration from Czechoslovakia, Poland, Ukraine, Slovakia, and Croatia.

## MEMORY OF NATIONS THEATRE

In April 2022, we screened a recording of *My Greatest Wish* in Sofia, Bulgaria, as part of the exhibition *A Secret Room*. Our theatrical adaptation of historical events caught the attention of the Stuba Community Centre in Lithuania. We organised a week-long theatre workshop for them, with 17 young people participating. We presented the MN Theatre at the international conferences *Q10 Beyond Integration: Cultivation and Sense of Belonging* and at the *European Remembrance Symposium*, which was held in Dublin, Ireland.

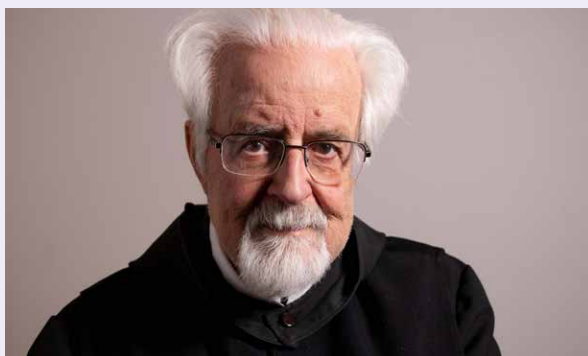

## UPROOTED – (HI)STORIES OF STOLEN CHILDREN DURING WORLD WAR II

In 2022, together with partner organisations from Germany, Poland, and Ukraine, we took part in implementing the educational project Uprooted – (Hi)Stories of Stolen Children during World War II. Its main aim was to present the topic of these so-called stolen children from the perspective of four European countries with different historical experiences and to highlight the continued abuse of children's rights as well as racial and ethnic animosity in the present world. The project gave rise to a travelling exhibition and a website with educational materials.

## COOPERATION WITH THE UNITED STATES HOLOCAUST MEMORIAL MUSEUM

Thanks to support from the US Embassy in the Czech Republic, we had the opportunity to deepen our collaborative ties with the United States Holocaust Memorial Museum, namely, by making USHMM recordings available to the Czech public and by enriching the USHMM database with new recordings from the Czech Republic.

## ARISTOCRATS IN EXILE

Film clips illustrating the lives of members of the Czech aristocracy in 1945–1990 accompanied an exhibition on the same subject, which was organised in Munich by Adalbert Stifter Verein in cooperation with the Institute for the Study of Totalitarian Regimes. The exhibition will also come to Prague in 2023.

## FROM GERMANY TO GERMANY VIA CZECHOSLOVAKIA

We finished work on the documentary project that recorded the memories of former citizens of East Germany who attempted to cross the Iron Curtain in Czechoslovakia in 1975–1989. Their testimonies will also be compiled in a documentary film, which we will present in 2023.

---

## Other projects:

---

- For the fourth year running, we continued to document the life stories of Germans deported from Czechoslovakia in 1945–1947.
- The Memory of Nations mobile team visited Banat in Romania for a second time to record the memories of leading figures of the local Czech community.
- We established ties with the Norwegian heritage organisation Falstad Centre, with which we are planning to create a joint exhibition in 2023 about Scandinavian support for the 1970s Czech dissident movement Charter 77.
- Together with teachers and pupils of Czech schools abroad, we documented the stories of expatriates in California, Ottawa, London, Zurich, and Edinburgh for the fourth years of Stories of Our Neighbours.

# Individual fundraising

We are very grateful for the support of all our donors. They enable us to fulfil our mission while remaining an independent organisation. We regularly meet with our supporters, we organise joint discussions with them and invite them to cultural events. In 2022, we continued with our traditional donor events – we organised the Remembrance Day collection and the Memory of Nations Run. Many donors participated in our collection Help Ukraine with the Memory of Nations.

## MEMORY OF NATIONS COLLEGIUM

For the second year running, the Chairman of the Memory of Nations Collegium Jan Dobrovský lends voice to half of the Memory of Nations podcast, along with Jindřich Šídlo. Once a fortnight they discuss current foreign and domestic affairs while also coming to terms with our past. In 2022, a number of cities throughout the country hosted live recordings of the podcast, which also served as opportunities for members of the Memory of Nations Collegium to meet. The Memory of Nations also organised a debate in Strahov with candidates for the office of Mayor of Prague. Members of the collegium also met with presidential candidates during debates at the Memory of Nations Institute and at the Memory of Nations Awards.

### **MEMORY OF NATIONS FRIENDS' CLUB**

The Friends Club brings together people who share an interest in history, both collective and individual, as well as complete trust in Post Bellum and respect for the values passed down from previous generations. We cordially invite all regular donors to join the Friends Club. In 2022, club members were invited to various interesting events, including guided tours along the locations connected to Operation Anthropoid, a weekend spent exploring the stories of freedom fighters in the Beskids, a visit to Ležáky with a guide, an exhibition of photographs from the Terezín ghetto entitled Album GT, and a tour of the Pardubice Memory of Nations Institute. They were also able to attend the opening days of our exhibitions and the Memory of Nations Festival in Strahov, Prague. Thanks to the generous support of the ever-growing base of small donors, the Memory of Nations Friends Club surpassed 6 800 members in 2022. We see them as the backbone of our organisation and we intend to continue to work on developing the club in the following year, while maintaining friendly, communicative ties with our supporters.

PROCEEDS FROM THE REMEMBRANCE DAY COLLECTION

### **PUBLIC COLLECTION FOR REMEMBRANCE DAY**

Our public collection in 2022 was the eighth of its kind. It took place at numerous collection points throughout the Czech Republic, in the streets of our cities thanks to our volunteers, on our website, and via partnered online shops. The proceeds were marked for the direct support of war veterans and other freedom fighters via the Memory of Nations Help Hub and for the documentation of their stories.

### **PUBLIC COLLECTION TO HELP UKRAINE WITH THE MEMORY OF NATIONS**

When Russia invaded Ukraine, we immediately launched a public collection to aid Ukraine. Thanks to the massive wave of solidarity by Czech donors, we amassed 414 031 966 CZK (over 17m EUR), which we swiftly used to procure life-saving equipment for Ukrainian soldiers and civilians.

### **MEMORY OF NATIONS RUN**

The seventh year of this charity run was held in 13 cities, with runners from other locations joining in as well through the Anywhere! run. In 2022, to commemorate All those who did not give up, we were joined by 1 900 individuals, 53 schools, and 40 company teams. Starting fees garnered 650 000 CZK to help fund the recording of more stories from the 20th and 21st centuries.

The past year also included a number of unexpected events and challenges for grant fundraising. Even so, from January to December 2022, we managed to submit 188 grant applications, which have brought in almost 26m CZK (1m EUR) as of 28 February 2023. This funding allows us to fulfil and expand our activities in the field of documentation, education, narration, and beyond, for which we are very grateful. We are especially pleased that a number of institutions have supported our efforts repeatedly over multiple years.

# Subsidiaries

## POST BELLUM PRODUCTION

The limited liability company Post Bellum Production is a subsidiary of the registered institution Post Bellum z. ú. Its main aim is to procure further funds to support the activities of its parent nonprofit organisation via usual commercial enterprises. These mainly include the Memory of Nations e-shop or the Memory of Nations Café in Brno. Post Bellum Production is also responsible for some of the production work, namely, for the Memory of Nations podcast Dobrovský & Šídlo and the organisation of its live recordings.

In October 2022, we launched a completely new e-shop, which is user-friendly for both its customers and for its administrators. We prepared a number of new items for our customers based on Post Bellum's values. The reconstruction of Lucerna Palace forced us to abandon our retail outlet there, but we expanded the e-shop to our branches in Pardubice and Brno. Automatised processes have allowed us to save considerably on operational costs, including the pre-Christmas season when the e-shop is the most busy.

The Memory of Nations Café functions within the Brno Memory of Nations Institute at Radnická 10. It first opened for a trial run on Remembrance Day, 11 November 2022. The design of the café fits the needs of the adjacent Memory of Nations Institute and can independently host book readings or film screenings, as well as lectures, talks, and smaller acoustic concerts.

## MEMORY OF NATIONS GRAMMAR SCHOOL

In September 2022, we opened the second year of our comprehensive four-year grammar school with a focus on the humanities. Its mission is to develop young people's natural desire to explore the world, to support their ability and courage to forge one's own path through life, and to co-create the environment we live in with an understanding of our shared historical memory. We have many values and projects in common with the school's chartering authority. In the study programme's signature subject, Memory of Nations, students participated in our renowned project Stories of Our Neighbours to become documentarians of life stories. Last year's overarching theme was (re-)emigration, with which the school acknowledged the legacy of John Amos Comenius.

\*Memory of Nations Grammar School and Post Bellum Production are subsidiaries of Post Bellum, z. ú, and so their activities are not included in this financial report.

## POST BELLUM UKRAINE

The Russian invasion of Ukraine was the drastic impetus for our collection Help Ukraine with the Memory of Nations, but also for reviving the operations of our Post Bellum branch in Lviv. In April, the philologist and culture journalist Evgenie Nesterova was appointed the new director of Post Bellum Ukraine. A new team underwent 10 days of training in Prague in June 2022. Online training was provided for 58 regional documentarians. The topic of our interviews is How We Fight: Stories of Ukrainian Resistance. A total of 32 recordings were completed from August 2022 onwards, 19 of which were made with of our new Eye Direct studio, with six camera operators trained to use it.

They helped prepare the Czech exhibition of war-wrecked Ukrainian cars in the Czech Republic. They attended expert events about the documenting of oral history in Ukraine both online and offline. They expanded their social networks and achieved commendable results with regard to follower growth. The number of subscribers on Facebook increased by 1 333 in half a year, and posts had an overall reach of 803 700 accounts. Instagram gained 5 505 followers from August, with a six-month reach of 533 734 accounts. The team at Post Bellum Ukraine prepared Myroslav Marynovych's visit to Prague for the Memory of Nations Awards on 17 November and secured a live broadcast of the ceremony on Ukrainian TV.

\*Post Bellum UA is independent sister organisation of Post Bellum, z. ú. Therefore, its activities are not included in the financial report.

## POST BELLUM SLOVAKIA

In 2022, we documented 156 stories for our database and 35 stories for our foreign partners. We published 125 of these stories on our website and our quarterly magazine (Príbehy 20. storočia), which has a dedicated theme for each issue. In 2022, the themes were emigration, history in a cup of coffee, the geopolitical orientation of Slovakia, and how to evaluate good.

CHILDREN AND STUDENTS PARTICIPATED  
IN EDUCATIONAL WORKSHOPS

We also tried to use other modes of expression and presentation to narrate stories of the 20th century. In 2022, we created two short animated films about Otto Šimek and Nadka Földváriová, which we released on YouTube. We also actively participated in the international project Gulag XR, which will result in an experiential workshop about the Gulag. We presented our activities to the general public via the travelling exhibitions AFTER WORLD WAR 2 and HERstory in the squares of 14 cities in Slovakia. We organised the Memory of Nations Run. In 2022, we caught the attention of the press, which informed about us 633 times.

Another of our tasks is to make stories of the 20th century accessible to children and students. In 2022, we organised 222 workshops, which were attended by approximately 4 800 children and students. We introduced Stories of Our Neighbours in Revúca and the Memory Theatre in Nitra. Commented film screenings were watched by 370 secondary-school students in Bratislava. In 2022, we also launched the Memory of Nations Puzzle – [puzzlepamatinaroda.sk](http://puzzlepamatinaroda.sk) – an educational website with teaching supplements for teachers. We co-organised the multi-genre international educational conference for university students, teachers, and fresh university graduates Free Students #FOREVER.

We also mediated the provision of aid to the defenders of Ukraine; 2 914 donors gave 292 999 EUR to our collection. We used these funds to buy and send equipment to the defenders of Ukraine.

\* Post Bellum SK is independent sister organisation of Post Bellum, z. ú. Therefore, its activities are not included in the financial report.
